The Erich Fromm Papers at the New York Public Library

Inventarium

by

Rainer Funk
Literary Executor of Erich Fromm

In the fifties Fromm donated part of his estate to the New York Public Library: scientific papers, correspondences and personal papers from the thirties and forties. The archivists of the NYPL created an inventarium of this material and produced microfilms of all papers. A copy of these microfilms was given to Rainer Funk who converted parts of the NYPL-collections into PDFs and compiled the following synoptical inventarium.
